Employers...

In today's world, the need to verify a person's identity has never been more important.

The **National Vetting Certificate** offers you a way to be assured that a candidate applying for a position within your organisation is who they say they are. The NVC meets BS7858 so you can be sure that when a candidate presents you with their NVC it means they are already vetted to a nationally recognised and accepted standard: this reduces your risk and saves your organisation the time, effort and expense of having to carry out those vetting checks.

As an employer you will also be able to independently verify any candidate's NVC by searching the secure online national database, offering you proof that a candidate is who they claim to be.

Candidates...

Make yourself more attractive to employers: show your initiative and prove yourself.

guardianjobs

staffvetting.com

Brought to you by staffvetting.com and guardianjobs.co.uk, the NVC offers you the perfect way to make yourself more employable. The background checks covered by the NVC include previous employment, character references and verifying your identity. These checks meet British Standard 7858 - the national vetting standard - and will enable you to prove your identity, as well as your initiative, to an employer, both of which will make you a much more attractive candidate.
